DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, 11-20, 41-50, 51, 59 and 60 are directed to call screening between a calling and called party based on caller ID, drawn to 379, classified in class 379, subclass 142.05.
- II. Claims 21-30, 31-40, 52, 53 and 61 are, drawn to three way calling with caller ID screening, classified in class 379, subclass 207.01.
- III. Claims 54, 55 and 56, drawn to called party identification with caller ID, classified in class 379, subclass 207.13 or 207.14.
- IV. Claims 57 and 58, drawn to call monitoring, classified in class 379, subclass 32.01.

The inventions are distinct, each from the other because of the following reasons:

Inventions s I, II, III and IV are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because of the reason given above. The subcombination has separate utility such as law enforcement monitoring, three way calling, identification of a called party among a plurality of parties using the same number based on PIN and so forth.

Art Unit: 2643

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
